

Central Beaverton Neighborhood Association

December 3, 2012 meeting

Officer Mike Smith - Beaverton Police Department

Car seat clinic will be on December 7th at Kuni Collision on Cedar Hills Blvd. between the hours of 9am - 12:30pm

Another car seat clinic will be held on January 19th at Kuni Collision on Cedar Hills Blvd between the hours of 9am - 12:30pm

Beaverton Tree Lighting Ceremony will be held on December 7th located at the Beaverton Library at 6:00pm

Neighbors are complaining that people are stealing their packages off their porches and front doors. 3-4 calls in 2 weeks. To prevent thefts, either make sure you are home when the packages are to arrive or let a neighbor know that you are expecting something and to be on the lookout for it.

There are many DUI cases this time of year. Officer Smith was recalling the recent accident on 217 @ Denny Rd regarding the intoxication man whose truck was hanging over the overpass. After a few hours the Fire department was able to save the man and hoist his vehicle up onto the street before it dropped onto the freeway below. There was news worth DUI story of a drunken man who was driving 80mph from west bound to south bound at the Sunset MAX Station and drove right onto the max tracks. The man had a lethal alcohol level of .50. Many do not know how this man was able to get himself into a vehicle let alone drive with that much alcohol in his system. Luckily, no one else was injured.

Central Beaverton Neighborhood Association needs a BCCI Representative

(Beaverton Committee for Citizens Involvement). If you are interested, please contact our Chairman - Paul Roder @ stephenhero_98@yahoo.com or Jason Wachs at jwachs@beavertonoregon.gov for more information.

Proposed Development of Memory Care Facility on Murray Blvd in Beaverton, Oregon

There is a proposal to build a Memory Care Facility at 4900 SW Murray Blvd, Beaverton; between Allen Blvd & 6th Street and approximately 250ft south of Farmington Road.

This will be a first time, family operated business on .73 acres of land. It will consist of a 14,000 sq. ft. main level facility and a 1,000 sq. ft. living and care bedrooms.

It will hold 24 total residents

The staff will consist of **4 – Day shift staff/2 – Night staff/2 – Swing shift staff = 8**

This will be a locked facility for the safety of the patients.

There will be a mix of private patients and Medicare patients

This is just in its preliminary stages and if paperwork and permits go as planned they can break ground in one year. It will take approximately 9 months to a year to complete. That would require blocking part of Murray Blvd during construction. Although the neighbors have concerns about traffic, water issues and plantings; all neighbors present at this meeting think it is a lovely building in the plans.
